¿Por qué Fedora?

- * Video 2017 de la comunidad Fedora a nivel mundial
<https://youtu.be/JHN4xHPYQjw>

Fedora is always free for anyone to use, modify, and distribute. It is built and used by people across the globe who work together as a community: the Fedora Project.

GNOME 3.0 fue lanzado primero en Fedora, antes que en Ubuntu y Open Suse

¿Por qué Fedora?

3.- Tiene el respaldo de Red Hat

Fedora nace como un proyecto que permite innovar y probar tecnologías basadas en Red Hat (22 años)

¿Por qué Fedora?

4.- Soporta nuevas tecnologías

- PulseAudio sound server
- The systemd init system
- Wayland display server

¿Por qué GNOME?

4.- Es inclusiva

The screenshot shows the top navigation bar of the GNOME website. It features a blue header with the GNOME logo (a white footprint icon) and the word "GNOME". Below the logo are several menu items: "GNOME 3", "Technologies", "Get Involved" (which is highlighted in a darker shade of blue), "Foundation", and "About Us". To the right of these menu items is a search bar with a magnifying glass icon and the text "Search".

GNOME is a friendly and welcoming community. Getting involved is a great way to learn skills, have fun, and help to create world-class Free Software.

Interviews

As GUADEC draws near, we've been curious about the people behind community events. We've sat down with Julita Inca to learn more about what it takes to rally a community and organize and plan events. Julita is a professor in Peru, teaching database and operating systems, and is also involved in High Performance Computing (HPC) research. She's been organizing and hosting events in Peru for the last 6 years. Read on to learn more about what it was like to start and build GNOME's community presence in Peru!

Where are you from and where are you based now?

I'm from Perú, and I'm based in Lima.

How long have you been contributing to GNOME?

Since 2011. Before joining I
